

INVESTOR PRESENTATION

End-to-End Infrastructure for Peptides, Longevity, and Personalized Health

A full-vertical infrastructure platform connecting product testing, wholesale supply, and verified patient outcomes.

[Investor brief](#)

CONFIDENTIAL © 2026 MIJORY WELLNESS
ENTERPRISES INC.

**DO NOT
DISTRIBUTE**

Proven Builders. Serial Executors.

We believe in founder credibility first, and asset-light vertical infrastructure next.

The wellness and peptide industry is scaling massively, but it is built on fractured, opaque infrastructure. MiJory is capturing the ecosystem by owning the **trust layer**—from the raw API to the patient diagnosis.

THE MIJORY ADVANTAGE

- **Integrated Stack**
Connecting diagnostics, pharmacy networks, and compliance software.
- **Defensive Moat**
Proprietary, immutable chain-of-custody tracking.
- **Ready to Scale**
200+ rep commercial engine already actively deployed.
- **Zero-CapEx Tollbooth Model**
We collect high-margin transaction, compliance, and SaaS fees across the ecosystem without manufacturing CapEx, inventory, or spoilage risk. We never touch the physical vial while still offering unmatched prices and margins due to our strategic partnerships.

02

The Industry's Critical Vulnerability

The \$1.8T wellness and longevity market is scaling rapidly, but its foundational infrastructure is fundamentally broken across six critical vectors, leading to a massive **Trust Deficit**.

 DATA & TECH

- No software standardization:**
Disparate, non-communicating systems.
- API bottlenecks:**
Legacy tools block tracking.
- Security risks:**
Fragmented data invites breaches.

 CONFLICTING INCENTIVES

- Margin compression:**
Intermediary costs hike prices.
- Affiliate abuse:**
Pay-per-lead prioritizes payouts.
- Volume vs. care:**
Fulfillment prioritized over screening.

 LEGAL & REGULATORY

- State licensing friction:**
Clinics face varying state laws.
- Compliance transfer:**
Non-health tech risks HIPAA violations.
- Prescription tracking:**
Digital relationships remain risky.

 REGULATORY & SAFETY

- Unapproved compounds:**
Lack of human clinical trials.
- Compounding risks:**
Raw sales bypass drug safety limits.
- Quality control:**
Dosing issues & heavy metal traces.

 SUPPLY CHAIN & QC

- Chain of custody breaks:**
Complex cold-chain layers.
- Vetting gaps:**
Struggle to audit 3rd-party sterile certs.
- Physical inventory burden:**
Legacy operators carry manufacturing COGS, cold-chain spoilage, and inventory overhead—MiJory removes this by digitizing the trust and routing layer.

 CONSUMER RISKS

- Counterfeit items:**
Fake online vials cause severe health risks.
- False marketing claims:**
Social media trends aggressively push peptides as miracle cures without clinical proof, triggering FTC/FDA liability.
- Lack of medical guidance:**
Unsupervised self-administration.

03 Advanced Technology Platforms From Supply Chain to Patient Outcomes

Here is the exact infrastructure we built to own that chain. Others own single lanes; MiJory connects the entire operating stack as **wholly-owned entities**.

FOCUS: ABSOLUTE REGULATORY COMPLIANCE THROUGH ALL VERTICAL COMPANIES.

TRUST & COMPLIANCE

Pure SaaS / per-transaction model. Collects high-margin provenance and compliance fees on every transaction via immutable chain-of-custody, LIMS, and audit trails.

SUPPLY & WHOLESALE

Marketplace / network model. Brokers high-margin wholesale peptide supply without holding inventory or taking on spoilage risk. Launching a peptide cosmetic line for online and retail store channels.

CLINICAL & TELEHEALTH

A clean telehealth routing layer that captures e-script and consultation fees, leaving physical fulfillment entirely to partners.

DATA & INTELLIGENCE

Solves **Conflicting Incentives** by turning provenanced supply and clinic data into actionable risk, clinical underwriting, and true outcome insights.

04 Corporate Structure & Scale Partners

HIGH-MARGIN TECH & DATA TOLLBOOTHS (ZERO INVENTORY RISK)

Wholly Owned Entities

Core operating companies solely owned by MiJory Wellness Enterprises, creating our proprietary vertical stack.

PHYSICAL INFRASTRUCTURE (PARTNERS BEAR 100% OF MANUFACTURING CAPEX, INVENTORY & SPOILAGE)

Strategic Scale Partners

Key external alliances providing enterprise fulfillment, diagnostic capabilities, and manufacturing scale.

CLICKBANK™

CLICKBANK

clickbank.com

Global e-commerce and affiliate marketplace.

PlexusDx

PLEXUSDX

plexusdx.com

Advanced clinical diagnostics and biomarker analysis.

CONFIDENTIAL MANUFACTURER

Exclusive 503A/503B cGMP compliant fulfillment.

05

Market Size & Complete TAM Analysis

The wellness and longevity market is massive, but structurally fragmented. MiJory takes a high-margin fee slice of transaction volume across these verticals—without bearing manufacturing COGS.

MACRO GLOBAL MARKET SIZES

MARKET CAPTURE FUNNEL

BOTTOM-UP SAM BUILD

\$65.0B

06 Strategic Partnerships: Maximizing Margins & Eliminating CapEx

Strategic partnerships lock in unmatched unit economics—base-level procurement and diagnostic pricing—without MiJory taking on manufacturing CapEx, inventory, or spoilage risk.

Pricing power of vertical integration; partners own the physical stack. We capture the high-margin routing and tollbooth layer.

PlexusDx

plexusdx.com

High Biomarker Test Margins

Unprecedented access to high-complexity clinical testing at dramatically reduced wholesale pricing—partner labs bear the physical CapEx and overhead.

- **Lucrative Arbitrage:** Exceptional margins on every biomarker, genetic, and nutrigenomic test ordered through our network.
- **Clinical Precision:** Elevates telehealth value via rapid, medically defensible laboratory results.

Exclusive 503A & 503B Supply Partnership

High Product Margins, Zero CapEx

Exclusive agreements deliver base-level procurement costs and guaranteed capacity. The manufacturer owns the facility and supply chain—MiJory carries zero manufacturing CapEx, zero cold-chain spoilage risk, and zero physical inventory.

- **Supply Dominance:** Base-level sterile peptide cost while never touching the vial.
- **Scale Capacity:** Partner-owned capacity fulfills B2B and D2C scripts as demand scales—without MiJory CapEx.

07 The Compound Revenue Flywheel

We operate as a digital tollbooth: routing, verification, and licensing fees at every node—high-margin economics decoupled from physical manufacturing COGS.

1. Partner Supply Economics

Partner-owned 503A/503B manufacturing delivers base-level pricing and capacity. MiJory routes demand; the partner bears CapEx, inventory, and spoilage.

PlexusDx

2. Diagnostic Routing Margins

Strategic integration with PlexusDx routes high-complexity biomarker tests through partner labs—recurring margin without lab CapEx.

3. BioTide & RxPath Tollbooths

Revenue via transaction fees and margins on routed wholesale and clinical orders—plus a peptide cosmetic line selling online and into retail—without holding inventory.

4. SaaS Licenses & Per-Scan Fees

TrakPath and Sentynl monetize via SaaS licenses, per-scan verification, and data licensing—pure software and data tollbooths.

The Tollbooth Takeaway

Every transaction through the ecosystem triggers a high-margin fee for MiJory, entirely decoupled from the COGS of physical manufacturing.

08 The Ultimate Defensive Moat: Rapid Growth

Engineered to Scale.

MiJory and our strategic partners have engineered the only fully vertically integrated, compliance-first infrastructure designed specifically for exponential adoption.

01. SOLVING MAJOR VULNERABILITIES

End-to-end provenance (TrakPath/BioTide) and licensed medical oversight (PlexusDx/RxPath) eradicate grey-market risks and opaque supply chains.

02. UNCOMPROMISING COMPLIANCE

503A/503B cGMP manufacturing, HIPAA/SOC2 data security, and CLIA-certified labs form an impenetrable regulatory moat.

03. RAPID, SCALABLE GTM

Because we are not bottlenecked by building physical manufacturing facilities or managing raw material inventory, our 200+ rep commercial engine and software infrastructure can scale instantly—amplified by ClickBank affiliate distribution.

PROJECTED ECOSYSTEM VOLUME SCALING

09 Platform Traction & Execution Timeline

Live product momentum across the MiJory stack — 342 BioTide entities and 300+ clinicians live today, TrakPath in market validation with hemp partners advancing to commercial SaaS, and a path to \$450M ARR at 85% margins.

LIVE / OPERATIONAL FEATURE SCALE / MONETIZATION

	PHASE 1 Q3 2026	PHASE 2 Q4 2026	PHASE 3 Q1-Q2 2027	PHASE 4 Q3 2027-2028	PHASE 5 2029	PHASE 6 2030
	LIVE Live RUO Portal 342 active B2B entities on v1.0; 200+ reps processing national wholesale volume	FEATURE RUO Catalog Expansion Beyond peptides into research compounds, longevity molecules & bioreagents; peptide cosmetic line for online + retail	FEATURE Sales AI/ML Enablement AI tools for 200+ reps: automated B2B reorder & clinic demand forecasting	SCALE Universal B2B Sales Engine White-label rep/downline software for nutraceutical & device sales orgs	GLOBAL Global RUO Rollout Wholesale RUO distribution into LATAM & near-shore markets	ARR Volume Scale Engine Core wholesale contribution supporting \$450M Target ARR
	LIVE Live Clinical Network 300+ 50-state clinicians live; e-script capabilities & 503A/B pharmacy routing	FEATURE Patient Expansion Patient/clinic portals with automated e-script routing & recurring care plans	FEATURE Specialty Protocol Scale Custom HRT, TRT, GLP-1 & biomarker-driven anti-aging care plans	SCALE General Telehealth Expansion Scaling beyond peptides into primary care, derm & tele-specialties	GLOBAL International Telehealth Deploying clinical infrastructure & provider networks into LATAM	STANDARD Longevity Standard Preferred clinical/telehealth layer for personalized medicine
	MARKET VALIDATION Market Validation + Provisional IP Provisional patent filed; NM ag/hemp rail established; 4 hemp companies preparing for v1 launch and beta participation	FEATURE v1.0 Revenue-Generating SaaS Paid-seat SaaS, LIMS modules and recurring per-scan verification fees	DEFENSIBILITY Vertical Integration + Regulatory Moat Deep BioTide/RxPath integration; proprietary workflow expansion and utility-patent pathway	SCALE & EXPANSION Customer Scale & Network Effects Growing paid customers and scan volume; compounding recurring revenue, vertical expansion, and data-network effects	EXPAND Cross-Industry Adoption Luxury goods, pharma, firearms/ammo & agriculture provenance	STANDARD Universal Compliance Rail Required provenance standard for regulated high-value commerce

02	Dual SaaS Revenue Activation & Catalog Expansion		04	Dual-Stream Data Revenue, Universal Sales & Regtech		06
				Global Footprint & Cross-Industry Adoption		\$450M ARR, 85% Margins & Exit Execution

10 5-Year Forecast Overview

Aggressive, Defensible Scale

Revenue is heavily weighted toward high-margin Diagnostics and SaaS in out-years, transitioning gracefully from our initial bulk wholesale volume penetration to an ecosystem capture model.

- **Accelerated Market Penetration:** Capital-efficient go-to-market via ClickBank affiliate networks and our 200+ rep engine—high-ROI channels, not blank-check spend.
- **B2B Infrastructure Capture:** Direct-to-clinic distribution pipeline securing long-term fulfillment agreements.
- **Compound Margins:** High margin SaaS & Diagnostic revenue layers driving hyper-profitability by year 3.

85%

GROSS MARGIN BY 2030

\$450M

TARGET 2030 REVENUE

11 Capital Strategy & Ask

TARGET CAPITAL RAISE

\$10M

- **Commercial & Affiliate Scale:** Aggressive go-to-market via targeted ads, training, and education, plus joint efforts with ClickBank on affiliate marketing—revenue-share aligned so spend compounds into scale, not overhead.
- **Scaling Infrastructure:** Strategically deploying capital to rapidly expand manufacturing capacity, proprietary labs, and high-margin biomarker testing facilities.
- **Commercial Deployment:** Rapidly scaling our proven 200+ rep engine nationwide.

SECURING SCALE WITH:

USE OF FUNDS ALLOCATION

Go-To-Market	27.5%	\$2.75M
Supply Chain	20.0%	\$2.0M
Key Hires	20.0%	\$2.0M
Platform Tech	15.0%	\$1.5M
Ops & Runway	10.0%	\$1.0M
Clinical R&D	7.5%	\$0.75M

APPENDIX

SUPPLEMENTAL DATA, BIOS, & DISCLOSURES

12 Appendix: Executive Leadership Bios

Josh McIver

CHIEF EXECUTIVE OFFICER

Serial entrepreneur and infrastructure pioneer. As Founder at ULedger, Josh pioneered blockchain data provenance and immutable supply chain verification. He brings an extensive background in Big Four consulting and Private Equity structuring.

Pete Anewalt

CHIEF OPERATING OFFICER

Operational powerhouse and scaling expert. Pete served as COO at ULedger alongside Josh, where he engineered the operational scale and infrastructure that directly led to a successful acquisition exit. He specializes in operations and process design, execution and people management, with a track record of scaling companies.

Ryan Pacheco

CHIEF TECHNOLOGY OFFICER

Technical architect and data science leader. Formerly a Machine Learning Engineer at Kount (acquired by Equifax), Ryan brings deep expertise in enterprise-grade data security, artificial intelligence, and predictive modeling.

Mike Larsen

PARTNER AND PRESIDENT RETAIL & OUTBOUND SALES

Commercial growth engine and distribution specialist. As former President of Sales at Bedrock Mfg, Mike successfully scaled global divisions past \$60M+ in annual run rates. He is an expert in omnichannel distribution strategy.

13 **Appendix: Extended Leadership & Growth Partners**

Extended Leadership Team

Greg Agle
VP, ENTERPRISE SALES

25-year track record bridging finance, telehealth, biotech, and diagnostics.

Jamie Johnson
VP, CLIENT RELATIONS

Strategic accounts, post-sale operations, and capital market client success.

Gaby Larsen
VP, CLIENT SUCCESS

15+ years driving growth through SEO, AIEO, and creative design.

Dave Otander
HEAD OF COMPLIANCE

Previous CCO, The Caprock Group —30+ years of wealth management, financial services, and SEC compliance oversight.

Todd Timmons
CONTROLLER

15+ years finance across venture-backed startups, SaaS, and tech.

Strategic Growth Partners

STRATEGIC GTM PARTNER

Key to accelerated market growth through direct-to-patient affiliate channels. Drives massive visibility and sales conversions via elite network distribution.

STRATEGIC DIAGNOSTICS

High-complexity biomarker analysis and rapid-turnaround testing validation.

MANUFACTURING PARTNER

Confidential 503A & 503B peptides creating economic and supply advantages.

14 **Appendix: Strategic Advisory Board**

Elite industry veterans, enterprise scaling specialists, and technical architects steering strategic growth.

Rich Stuppy
STRATEGIC ADVISOR
PRIOR: KOUNT / CLICKBANK

Veteran technology executive. Deep expertise in fraud prevention, e-commerce scale, and corporate exits.

Gary McIver
STRATEGIC FINANCIAL ADVISOR
PRIOR: DELOITTE PARTNER

Senior financial strategist and retired Deloitte Partner in Charge. Decades of Big Four leadership across consulting, tax, M&A and head of the firms Asia-Pacific region.

Marc Urbaitel
STRATEGIC TECHNICAL ADVISOR
PRIOR: AWS LEAD

Senior cloud architecture advisor and enterprise AWS specialist. Expertise in high-concurrency cloud design.

Drew Kidder
STRATEGIC ADVISOR
PRIOR: APAC REGION HEAD

Extensive global expertise spanning international M&A, business consulting, tax structuring, and cross-border expansion.

Comprehensive Advisory Expertise

Our board provides deep, actionable expertise across **technology, M&A, data monetization, secure data infrastructure and security, exits, fraud prevention, tax and finance strategy, medicine, international business development, corporate partnerships**, and more.

15

Appendix: Forecast Drivers

Base-case engines with detailed support available in the data room.

ENTITY	PRIMARY DRIVERS	NOTES
	Beneficial product and supply pricing.	Partner bears manufacturing CapEx, inventory & spoilage—enabling BioTide/RxPath high-margin routing economics.
	Global affiliate networks, D2C conversions, and digital scaling.	Drives immediate patient volume and telehealth utilization.
	Bulk RUO/clinical, white-label, downline	Starts ~\$600K/mo gross path; org margins ~30%
	Visit fees, clinician SaaS, care margin	\$15 visit / \$299 onboard / \$59 SaaS; high-margin tech fees, partner fulfillment
	Seats, custody verification, LIMS SaaS	~\$10/user, \$5/verify, \$299/mo lab packages—pure SaaS / per-scan tollbooth
	Provenanced data licensing & insight	Portfolio + clinic exhaust with provenance
	CLIA network, Pathway panel, biomarker testing	Partner-owned lab CapEx & overhead; MiJory captures routing/test margins (24–48 hr TAT)

16 **Appendix: Full Vertical Capabilities & Flow**

17 Appendix: TrakPath Mobile Visibility

TRAKPATH

trakpath.io

Mobile verification deployed to every node.

SUPPLY CHAIN VISIBILITY

Provides end-to-end GPS, timestamped scans, and environment tracking at every node—from manufacturing floors to clinical administration.

CHAIN OF CUSTODY PROOF

Utilizes immutable cryptographic ledgers to unequivocally prove who possessed the vial, under what conditions, and at what exact times.

INTEGRATED LIMS

Laboratory Information Management System seamlessly connects batch testing and diagnostic reporting data directly to the physical inventory.

TRUSTED COA'S

Certificates of Analysis are digitally bound to the unique QR identity of the lot, preventing COA manipulation, shopping, or counterfeiting.

18 **Appendix: Regulatory & Compliance Edge**

Navigating the complex peptide and wellness regulatory landscape requires integrated, unassailable control. Every node in our ecosystem is engineered for absolute compliance.

 Tech Platforms

Uncompromising focus on **SOC2 compliance, HIPAA compliance, patient privacy, data integrity, and complete visibility** across all systems.

Ensures product authenticity through **immutable chain-of-custody proof** and cryptographically secure **COA authentication**.

The **Compliance Hub** ensures safety by verifying all wholesale peptide buyers through rigorous cross-checking of the **national NPI number database**.

Protects the brand and public through rigorous **compliance training and development** programs for all affiliates and distributors.

Maintains the highest manufacturing standards with **503A compounding, 503B outsourcing, cGMP compliance, and strict FDA registration**.

Anchors medical testing in rigorous scientific truth, operating under strict **CLIA Certification and ISO 17025** accreditation parameters.
